1	1	1					

text field for stimulus notes

relative paths to files within the Parent directory

add/remove/duplicate a row

check to add columns for trial start/stop frames within an imaging or annotation file

load data into Bento!

☐ Multiple trials per Ca file

Ca framerate (Hz): 30

☐ Variable Ca framerate

☐ Time offset between Ca + annot start

check to add column for time offset between start of imaging and behavior acquisition

☐ Multiple trials per annotation file

Anno framerate (Hz): 30

☐ Variable annot. framerate

check if different trials are recorded/annotated at different framerates

show/hide columns

☒ Link tracking data

☒ Link behavior movies

☐ Link audio data

save/load table to an excel sheet
